Program Administration and Curriculum:

This 30 hour online degree program is designed for completion in five semesters. Students graduating from this program will earn a master’s degree in Elementary K-6. All courses offered in this program are selected from our approved M.Ed. in Elementary Education program and are taught by School of Education faculty. The deadline for submitting an application for the M.Ed. Elementary Online program is March 1st each year. Classes begin the first summer term and end the following year after the first summer term. Two classes will be offered each semester and will be selected from the list below.

- EDRS 605  Educational Research
- EDEL 531  Differentiated Instruction
